Seminar on Cyber Crimes for Students & Parents

FOR STUDENTS-30/10/2012

The department organized **an awareness seminar on cyber crimes** for the students of whole college along with the women's club. **Women cell C.I. Prasana Amboorath** was the invited speaker for the day. She extended her anxiety towards the increasing cyber crimes among the youth and discussed various cases of its kind with the girls. She also introduced various types of cyber crimes through the wrong usage of internets and mobiles. She added that the trend is very much visible among the teenagers and victims are mostly college and school going girls. Dr. Annie Thomas, Head of the department; an active member of women cell extended the vote of the thanks.

FOR PARENTS-01/11/2012

The department also managed to organize a similar awareness class on cyber crimes along with the college union for the parents. **Women cell C.I., Prasana Amboorath** and **Cyber Cell S.I., P.O. Francis** gave a thought provoking class on cyber crimes to the parents and refreshed their duties to prevent their wards from getting entangled in such a web of sin. The parents were reminded to keep the computers in the open place and to observe their wards regularly. The parents also got a chance to interact with the orators and clarify their doubts.

ONE DAY WORKSHOP ON ORNAMENTAL FISH CULTURING AND AQUARIUM MAKING FOR PARENTS

10/8/2012

August 10th 2012, a one day workshop on 'ornamental fish culturing and aquarium making' was organized by the department **for the parents and the students of the whole college** in the audio visual room. Many parents and students attended the programme. The speaker for the day was an eminent personality and exceptionally experienced from the field, **Mr. John Jacob, Assistaant manager, Matsya Fed, Kottayam**. The area focused for discussion was '**ornamental fishes of Kerala- methods for rearing and culturing**'. The very informative and job oriented conversation succeeded by a revealing demo class on 'aquarium making'. The orator added that aquarium making stands 2nd in the world wide hobbies and most prefer it for livelihood. Many new and conventional aquarium making techniques were shared with the audience in the session.
