

## EXTENSION ACTIVITIES OF DEPARTMENT OF CHEMISTRY

Year 2017-18

**Knowledge at the service of society:** In the month of July, our extension activity, tuition classes for students of St. Joseph's School was started. Students are divided into different groups and each group handled the tuition class in their allotted period.

**Science Day Celebrations:** As part of the Science Day, Department of Chemistry organized an exhibition on 28<sup>th</sup> February and 1<sup>st</sup> March 2018. Students arranged many interesting chemistry experiments like, artificial volcano, artificial surgery, rainbow flame, elephant tooth paste, lava lamp, iodine crackers, bouncing ball, flame on hand, walking water, artificial sunset, density column etc. Still models and a science video show were also arranged.
